Town-twinning projects

- cultural and commercial exchange between twinned cities
- town-twinning projects are the foundation for the understanding between countries and people, particularly among countries in the European Community.
- the exchange under the town-twinning projects gives a number of opportunities of showing this:
 - dance and music performances
 - exhibitions of significant objects on relevant topics in the twinned towns
 - joint festivals with traditional regional specialities
 - sporting events and ultimately also
 - exchange of information by organisations and associations
